COLLECTION PRESENTATION

MILAN DESIGN WEEK 2026

ONYO

Rooted in Japanese Yin and Yang philosophy. A way of thinking shaped by the balance between harmony and energy, between calm and tension. Clear, precise edges meet soft, organic curves.

Light maple and dark ash. Two tones, clearly distinct, yet perfectly balanced. Designed for functional beauty and long-lasting use. Timeless and cross-generational in its appeal.

Photographed by Gerhardt Kellermann

Prices can be found at the end of the document.

KRISTALL

Cast in glass. Heavy and expressive. Contrasted by the lightness with which the light refracts within it. KRISTALL plays with reflections, with colour, with the moment.

Sometimes clear, sometimes intense. Sometimes loud, sometimes quiet. Between dramatic gesture and glamorous elegance. Polarising in the best sense of the word.

Photographed by Gerhardt Kellermann

Prices can be found at the end of the document.

OF.LINE

Designed by Sebastian Herkner – his studio just steps away from Decor Walther in Offenbach – the collection unites handcrafted porcelain with precisely engineered aluminum.

Vertically grooved surfaces reference iconic architecture and create a play of light and shadow – tactilely striking, visually expressive. Three aluminum finishes meet three porcelain tones – exciting combinations with harmonious effects.

OF.LINE is inspired by the shared roots in Offenbach. A statement between tradition and innovation.

STONE

Pebbles on a lakeshore, smoothed by water. How pleasant they feel in your hand. This is exactly the tactile experience evoked by the STONE collection. The sculptural simplicity of its design language is its hallmark.

STONE is crafted from 100 % recyclable mineral material, whose non-porous surface is particularly hygienic.

Prices can be found at the end of the document.
