

A close-up, low-angle shot of a woman's face in profile, looking upwards. She is in a shower, with water spraying over her face and hair. Her eyes are closed, and her hands are visible near her neck, suggesting she is enjoying the water. The lighting is warm and golden, creating a relaxing and luxurious atmosphere. The background is dark, making the water droplets and the woman's features stand out.

New Shower Highlights 2024

The creation of
extraordinary water
experiences...

... has driven us
in the past...

... and continues to
drive us now and in
the future.

A close-up, low-angle shot of a woman's face and hands in a shower. She is looking upwards with her eyes closed, and her hands are gently cupping her face. Water is spraying over her face and hands, creating a sense of relaxation and bliss. The background is a warm, golden-brown color, and the water droplets are captured in motion, creating a dynamic and refreshing scene.

Water, light, bliss: AQUAHALO is an innovative, unique design solution for the bathroom and spa:

AQUAHALO

Water, light, bliss: AQUAHALO is an innovative, unique design solution for the bathroom and spa:

- Sculptural experience shower inspired by a classicist crystal chandelier is unique on the market. The "classic", functional design language of sanitary objects is replaced
- Makes the shower the centre of the architecture
- Sets new standards in the presentation of water

The image features three black showerheads against a dark background, each demonstrating a different water jet pattern. The showerhead on the left emits a wide, fan-like spray of water. The middle showerhead creates a dense, curtain-like flow of water. The showerhead on the right produces a narrow, vertical column of water. The text is positioned in the lower-left corner of the image.

With three effective jet types,
AQUAHALO enables meditative
and revitalizing Bliss moments.

AQUACIRCLE RAIN
envelops the body in a funnel
shape with gentle jets.

TEMPEST RAIN

Large, soft drops fall onto the body seemingly without pressure, solely due to the gravity of the water.

DIAMOND RAIN
combines soft light and crystal
water to create a refreshing
experience for body and soul.

Selection of finishes

Curated selection of surfaces enables a consistent design in the bathroom.

SERENITY SKY

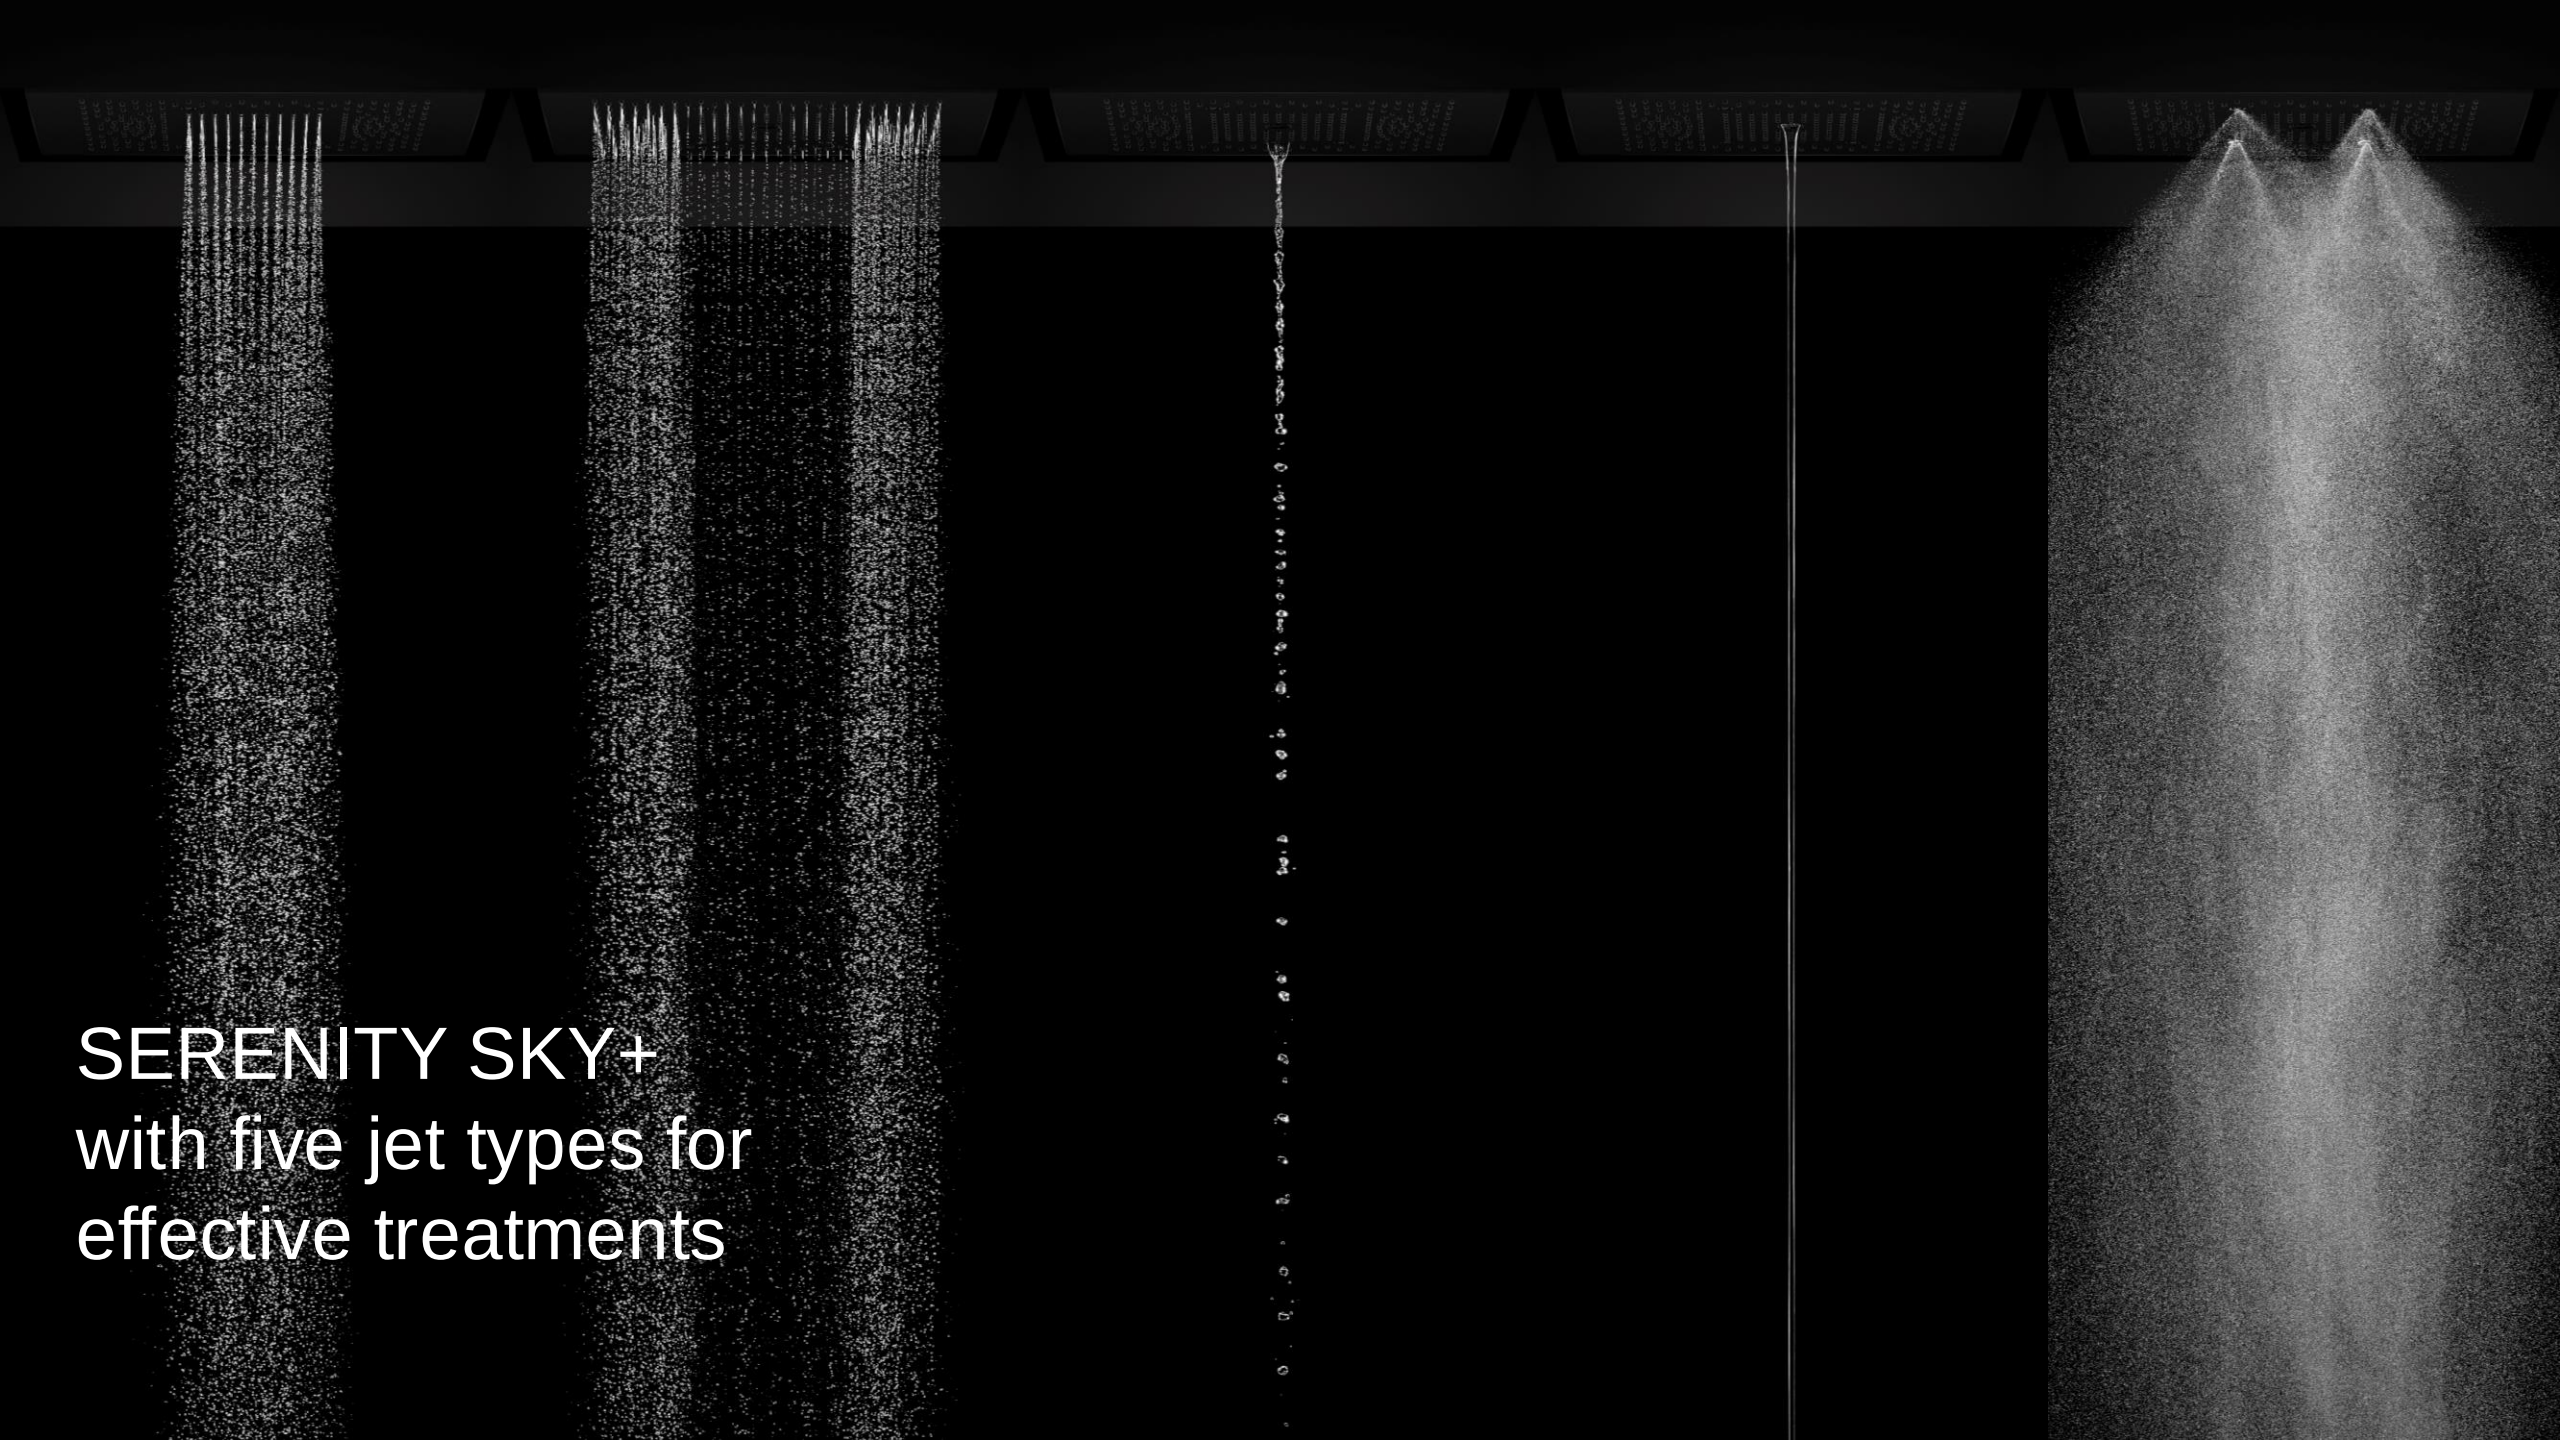

With the new SERENITY SKY, you can bring effective water experiences into your bathroom or spa:

- Completely flush with the ceiling and with no visible screw fittings, SERENITY SKY blends seamlessly into the ceiling
- Tailored to the human body, the minimalist rain panel offers up to five effective jet types and coloured light
- SERENITY SKY combines all active principles (Bliss, Aquapressure, Kneipp) in one product

The image shows two showerheads mounted on a dark surface. The showerhead on the left is a rectangular panel with a grid of small nozzles, creating a fine, mist-like spray of water. The showerhead on the right is a similar rectangular panel but with larger nozzles, creating a more pronounced, curtain-like spray of water. Both sprays are illuminated from above, making the water droplets appear as bright, shimmering lines against the dark background.

SERENITY SKY
with two soothing
rain jet types

SERENITY SKY+
with five jet types for
effective treatments

PURIFY RAIN

cleanses and energizes with
a powerful, intensive jet.

FULL RAIN

unfolds a meditative effect with
a gentle, flat rain.

AQUAPRESSURE FLOW
is an effective type of jet that can
relieve tension and support
regeneration after sport.

LAMINAR FLOW
is a concentrated, powerful
jet that gently and evenly coats
the skin.

COOL MIST

is an activating spray that provides a particularly pleasant form of cooling and refreshment. As a light, cooling mist, it moistens the skin and revitalizes body and mind.

Water treatments utilise the healing power of water to increase well-being and vital energy. The combination of jet types creates an enveloping shower with a simultaneous refreshing effect.

The colour of the SERENITY SKY light joint can be adjusted as required, creating a fascinating interplay of water and light.
